

§ 923.52

15 CFR Ch. IX (1–1–01 Edition)

(ii) Statements of the national interest in the planning for or siting of facilities which are more than local in nature;

(iii) Uses which are subject to the management program;

(iv) Areas which are of particular concern to the management program;

(v) Boundary determinations;

(vi) Shorefront access and protecting planning, energy facility planning and erosion planning processes; and

(vii) Federally developed or assisted plans that must be coordinated with the management program pursuant to subsection 306(d)(3) of the Act.

(6) Indicate the nature of major comments by Federal agencies provided during program development (either by including copies of comments or by summarizing comments) and discuss any major differences or conflicts between the management program and Federal views that have not been resolved at the time of program submission.

§ 923.52 Consideration of the national interest in facilities.

(a) The management program must provide for adequate consideration of the national interest involved in planning for, and managing the coastal zone, including the siting of facilities such as energy facilities which are of greater than local significance. In the case of energy facilities, the State must have considered any applicable national or interstate energy plan or program.

(b) The primary purpose of this requirement is to assure adequate consideration by States of the national interest involved in the planning for and siting of facilities (which are necessary to meet other than local requirements) during:

(1) The development of the State's management program,

(2) The review and approval of the program by the Assistant Administrator, and

(3) The implementation of the program as such facilities are proposed.

(c) In order to fulfill this requirement, States must:

(1) Describe the national interest in the planning for and siting of facilities

considered during program development.

(2) Indicate the sources relied upon for a description of the national interest in the planning for and siting of the facilities.

(3) Indicate how and where the consideration of the national interest is reflected in the substance of the management program. In the case of energy facilities in which there is a national interest, the program must indicate the consideration given any national or interstate energy plans or programs which are applicable to or affect a state's coastal zone.

(4) Describe the process for continued consideration of the national interest in the planning for and siting of facilities during program implementation, including a clear and detailed description of the administrative procedures and decisions points where such interest will be considered.

§ 923.53 Federal consistency procedures.

(a) A State must include in its management program submission, as part of the body of the submission an appendix or an attachment, the procedures it will use to implement the Federal consistency requirements of subsections 307 (c) and (d) of the Act. At a minimum, the following must be included:

(1) An indication of whether the state agency designated pursuant to subsection 306(d)(6) of the Act or a single other agency will handle consistency review (see 15 CFR 930.18);

(2) A list of Federal license and permit activities that will be subject to review (see 15 CFR 930.53);

(3) For States anticipating coastal zone effects from Outer Continental Shelf (OCS) activities, the license and permit list also must include OCS plans which describe in detail Federal license and permit activities (see 15 CFR 930.74); and

(4) The public notice procedures to be used for certifications submitted for Federal License and permit activities and, where appropriate, for OCS plans (see 15 CFR 930.61 through 930.62 and 930.78).

(b) Beyond the minimum requirements contained in paragraph (a) of
